

# TEEN SCIENCE SCHOLARS

Discover your full potential • Explore your passion for the natural world • Experience science at its best

## EXPLORE

Teen Science Scholars complete hands-on summer internships with Science Division staff at the Denver Museum of Nature & Science. Teen interns strengthen their investigative and communication skills, develop a peer network of students from across the state of Colorado, and share their work and experiences during a Showcase event at the end of the summer.

To be eligible, applicants must be entering their junior or senior year of high school in the fall of 2021, be interested in learning more about a science-related career, and be available for the duration of the internship (early June through the end of July). Teens from groups that have been historically marginalized from the sciences and individuals who will be the first generation in their family to complete a four-year college degree are strongly encouraged to apply.

## DISCOVER

In previous years, Teen Science Scholars completed internships in archaeology, earth science, education collections, health science, ornithology, photography, and zoology and botany collections.

**The 2021 focus areas will be determined and posted on our website soon.**

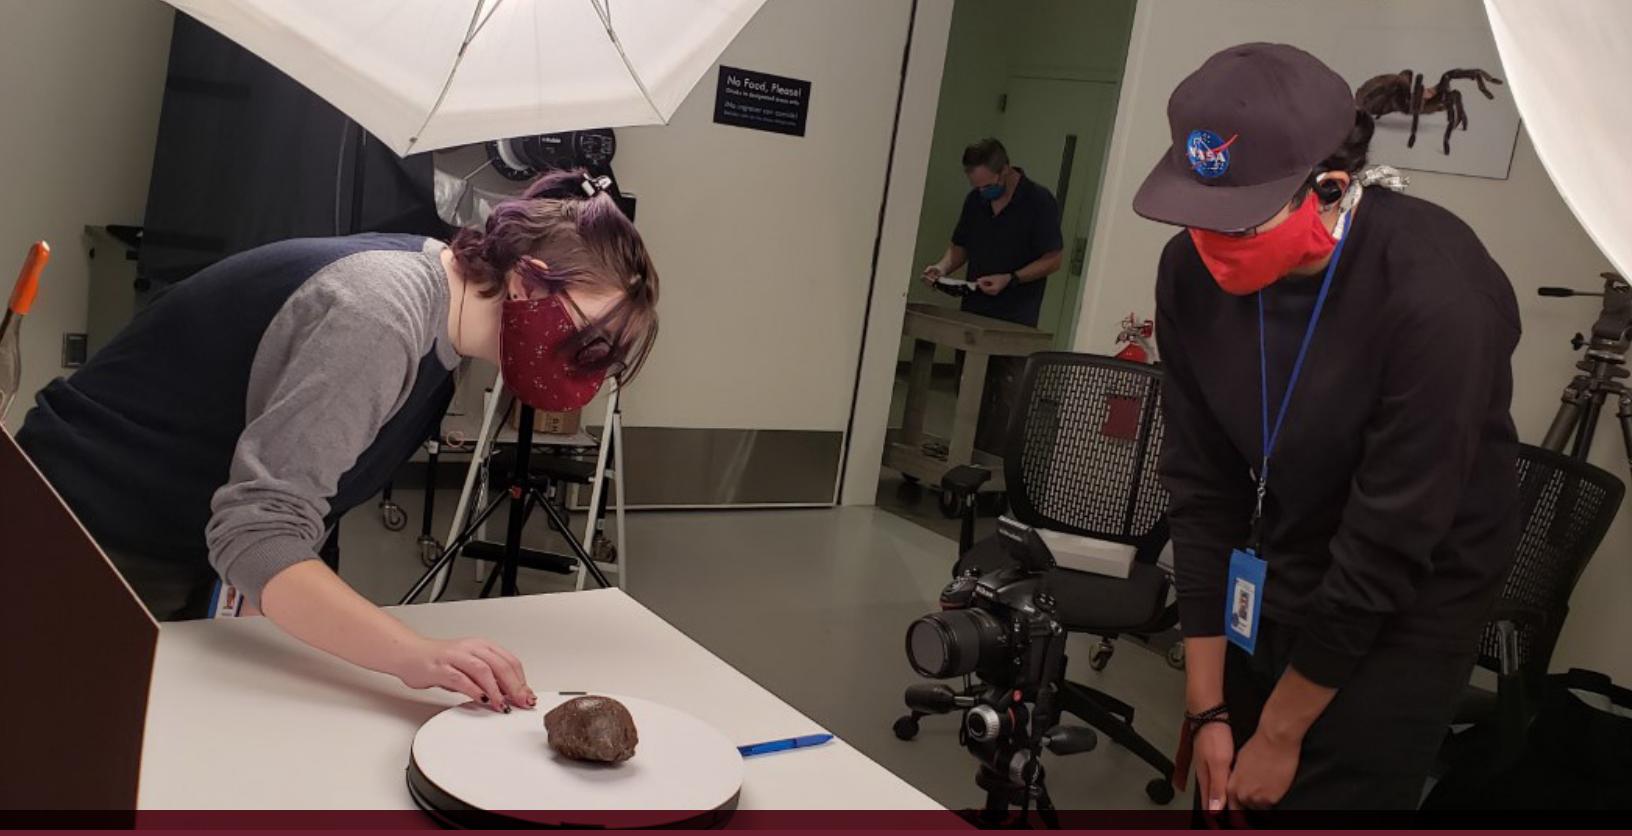

## QUESTIONS?

Email Eric Shames, Teen Programs Engagement Specialist

[Eric.Shames@DMNS.org](mailto:Eric.Shames@DMNS.org), or visit

[www.dmn.org/teensciencescholars](http://www.dmn.org/teensciencescholars) to apply.

## APPLY NOW!

Visit [www.dmns.org/teensciencescholars](http://www.dmns.org/teensciencescholars) for more information and to complete the application. Applications must be received by Sunday, March 14, 2021.

Late or incomplete applications will not be considered. If you are selected as a candidate, you will be scheduled for a virtual interview with Museum staff. Interviews will take place in late March and early April 2021. Applicants will receive all notifications via email.

Teen Science Scholars receive a monthly stipend, bus passes, and Museum cafeteria vouchers to offset cost-of-living expenses during their internship. Transportation and supplies for fieldwork are provided by the Museum.

Teen Science Scholars is made possible with support from the Harvey Family Foundation, the Gateway Fund II of The Denver Foundation, the Paul and Harriet Rosen Teen Science Scholars Endowment, Dr. Paul & Mrs. Harriet Rosen, Marx-Stark Family Foundation, Robert Walker & Cristy Godwin, Phillip & Susan Greenberg, John G. Duncan Charitable Trust, Robert Zupkus & Janet Burda, Jon & Roxanne Isenhart, and Lael Moe & Cathy Fennelly, among other donors, and Dr. Richard Stucky, who was instrumental in founding the program.
