

Magical Winter Nights

Welcome to The Lodge where your Magical Winter Night's experience begins. Take a moment to warm up by the fire, purchase a drink and snacks, or snap a selfie...then take the elevator up to the Third Floor!

Tips to get the most out of your experience: Once you exit the elevator, it's time to choose your own adventure. **Feel like relaxing?** Check out A Wild Winterland and the Celestial Canopy. **Younger merry makers in tow?** You can't miss The Frosted Path and Glacier Groove. **Want to revisit a favorite?** Loop back through to see what you might have missed.

THIRD FLOOR

A Wild Winterland: Purchase a cocktail and a snack to enjoy in this moonlit savanna scene while you take in a 10-minute kaleidoscope of changing lights.

The Frosted Path: Take off your shoes, tuck them in a cubby and then show off those holiday socks while you skate around an "ice-less" indoor skating rink (no skates required).

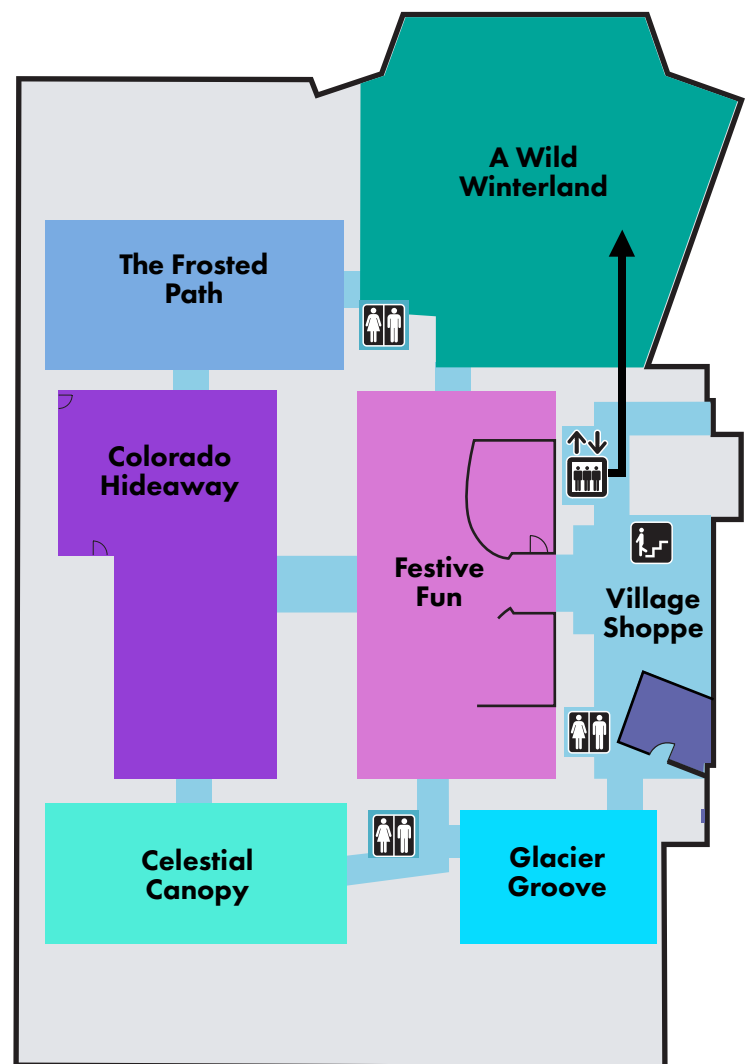

Colorado Hideaway: Take a moment to grab a drink, relax in front of a campfire and snap a selfie in a handmade postcard frame set against the backdrop of a beautifully recreated Colorado scene before continuing.

Celestial Canopy: It's the perfect time to sit down and take in the colors of a breathtaking aurora borealis light show then wander over to a reflecting pool where you can see constellations appear with the switch of a button.

Festive Fun: Holiday crafting? Check. Giant Jenga? Check. Time to get festive and have fun with friends and family.

Glacier Groove: As you move from the northern lights out into the hallway, get ready to dance to tunes being spun by the coolest DJ in Colorado.

Village Shoppe: Don't forget to spin through the holiday shop before you head home to pick up a unique gift or souvenir to commemorate your night.

Magical Winter Nights

YETI SCAVENGER HUNT

A mischievous Yeti has been sneaking through Magical Winter Nights. It wandered through The Lodge, explored the wildlife halls and even tried to join the Glacier Groove Party. Now it is your turn to track it down. Follow the clues, search each location and see if you can spot the Yeti. Good luck and enjoy the hunt!

The Lodge

The Yeti loves a warm welcome. Look for it tucked near the hearth, staying toasty before the adventure begins.

A Wild Winterland

The Yeti climbed high for the best view. Check the baobab tree for a furry face peeking from the branches.

Colorado Hideaway

Coloradans love a good summit. The Yeti does too. Spot it near the bar, popping out of a snow drift.

Celestial Canopy

The lights drew it in. Search the reflecting pond for a Yeti hiding under the glow of the northern lights.

Festive Fun

The Yeti is waiting for its turn at holiday crafting. See if you can spot it with a few crocodile friends.

Glacier Groove

The Yeti tried to join the party. Find it on \$nowmotion's pipe, clearly ready to dance.

Village Shoppe

Want a Yeti of your own? Buy one here and take it home.
